

Prescribing policy for supply of Freestyle Libre on FP10

North East Essex CCG does not support the prescribing of Freestyle Libre on FP10.

The Freestyle Libre flash glucose monitoring system measures interstitial fluid glucose levels in people with diabetes. It is due to be added to the Drug Tariff on November 1st 2017.

North East Essex CCG will not support the use of the Freestyle Libre flash glucose monitoring system until a full review of the product has been carried out and its place in local glucose monitoring pathways agreed. This review will consider both local and national guidance relating to the device, outcome evidence and cost effectiveness.

Recommendation:

Do not prescribe the Freestyle Libre flash glucose monitoring system on FP10
